

February 27, 1976

SENATOR NICHOL: Right, to the amendment, not to the bill. But we are being played for suckers out there at Lake McConaughy by the Colorado fishermen. It costs money to put those kind of fish that we have in that lake out there and they are good fish and the Colorado people know this and our price is not commensurate with Colorado. I don't know what it is with South Dakota and Iowa but I think Senator Rasmussen has a very good amendment here to make this a little even so that we are not footing the bill for somebody else. Now another thing that is going on out there is Colorado fishermen are coming in and using pressure cookers to can these fish and they stay there so they won't have too many. I know this is true but it is so cheap to come over there and have a good time that they keep coming and they are coming hard, faster and faster, and I think this is one thing that we should be capitalizing on. They don't mind this much fee, I am sure, and Senator Rasmussen might talk on this on his closing. If this isn't true, tell us that it isn't but I do believe that his amendment would make this more even with the Colorado fee when we go over there.

PRESIDENT: Senator Clark.

SENATOR CLARK: I had a bill in and Senator Syas' Committee killed it and I think rightly so. The bill I had in would have been a reciprocal license. The only bad thing was I didn't go just for fishing. I went for fishing and hunting both and some states don't have deer, antelope and the rest of it so there is no way to reciprocate but, certainly, I happen to be from western Nebraska and I fish at McConaughy. I see all of these people coming in out of Denver that bring all their groceries in with them. They stay the weekend. Most of them don't even buy a license because the fine is only \$10 for not buying a license so they would rather try to get caught without buying anything. I have got to pay \$25 if I go to Colorado to fish which I do and I have to pay \$25. They can come over here and fish for \$2 a day, and as I say, if they buy the license at all and I would certainly support the amendment to make it to \$25 and that is what he is doing.

PRESIDENT: Senator Duis.

SENATOR DUIS: Mr. President, members of the Legislature, I had the unfortunate experience of presenting Senator Clark's bill to the Recreation Committee because he wasn't there at that particular time, he was in Appropriations, and I was amazed at the opposition to the bill because it came from the Game and Fish Department. The problem is great. Now I have one remark to make to Senator Dworak. I don't know if he is a fisherman or a hunter, and also anyone else who is visiting here, you know I go to Canada once in a while fishing and I don't write up there to find out how much the fishing license is going to be before I get there to find out if I am going to go to Canada and I don't go write to
